## Education

**Heritage Institute of Technology**

*Bachelor of Technology, Computer Science*

**Oct. 2022 – June 2026**

*Kolkata, West Bengal*

## Experience

**MERN Stack Developer**

*NooBuild Community*

**Sep 3, 2024 – present**

*Kolkata, West Bengal*

## Projects

**COMMUNIQ** | *React, Tailwind CSS, Node.js, MongoDB, Express.js, Socket.io, Zustand*

**Live Preview**

- Direct Chats/Channels: Offers two modes—personal one-on-one chats and group-based channels
- Real-Time Communication: Users can chat and exchange messages in real-time.
- File Management: Users can send, receive, and download files directly from chat.
- Profile Management: Users can update their profile information.
- Media Support: File transfers include various media types.
- Scalable Architecture: Capable of handling multiple users and channels effectively.

**TASK MANAGER** | *React, Tailwind CSS, Context API*

**Live Preview**

- Create Tasks: Users can add new tasks to their todo list with a simple and intuitive interface.
- Update Tasks: Users can edit existing tasks to update their details.
- Delete Tasks: Users can remove tasks that are no longer needed.
- Mark as Done: Users can mark tasks as completed, helping them track their progress.
- Responsive Design: Ensured the application is fully responsive, providing an optimal user experience on desktops, tablets, and mobile devices.

**LINKEDIN CLONE** | *React, Tailwind CSS, Firebase, Material UI, Redux*

**Live Preview**

- Developed a LinkedIn clone application that allows users to create profiles, connect with other users, and post updates.
- Utilized React for building the user interface and Firebase for handling authentication and real-time database functionalities.
- Implemented responsive design with Tailwind CSS to ensure the app is user-friendly across various devices, including desktops and mobile phones.
- Integrated real-time updates for user interactions and posts, ensuring an interactive and dynamic experience.
- Ensured secure user authentication and data management by leveraging Firebase's built-in security features.

## Technical Skills

**Languages** C, C++, HTML/CSS, JavaScript, TypeScript

**Developer Tools:** VS Code, Git

**Technologies/Frameworks:** React, Zustand, Recoil, Tailwind CSS, Node.js, MongoDB, Express.js

## Achievements/ExtraCurricular

**Team Leader**

**Aug 2023**

*SpidyTech*

*Heritage Institute of Technology*

- Led a team in the HackHeritage event (Aug 2023) for Smart India internal hackathon.
- Top 30 team selection for project excellence.

**Member**

**June 2024**

*GDSC*

*Heritage Institute of Technology*

- Member of GDSC club of HITK.
